Broken Carbon joins RGF Sports as a partner to benefit World Bicycle Relief

CLEVELAND, OH - September 23rd, 2011: Boulder, CO based, Broken Carbon, will be the official carbon repair service provider for RGF Sports in 2012.

“Unfortunately we damage a lot of team frames during the course of a race season,” said team owner, Polo Fernandez. “Broken Carbon will be a great partner to have so we can save these frame that would make great pit bikes for the team.”

“It’s comfortably to know that Broken Carbon is using the exact materials our frames are made with and will be repaired to a state stronger than original. It’s great to know that the repair is engineered to the exact location and type of damage. It’s not one size fits all, as each repair is fully custom.” stated, Mr. Fernandez.

Owner, Brady Kappius, has a Bachelors of Science in Metallurgical and Materials Engineering from the Colorado School of Mines as well as a Masters of Science in Mechanical Engineering from the University of Colorado at Boulder. He has both a personal and professional passion for composite materials with over 5 years of repair and fabrication experience. In addition to his engineering background, he is also a professional cyclist racing for Clif Bar. All repair work is done in beautiful Boulder, Colorado!

Broken Carbon was just recently featured in the Nov/Dec issue of Road Magazine.

About RGF Sports: Heading into its 7th season, RGF Sports is sponsored by some the world lead businesses in their respected industry.
